Women Shaping Colorado Springs: Historic Changemakers You Should Know

As we commemorate Colorado Springs Sesquicentennial in 2021, Leah Witherow states it is the opportune time to examine our past, reflect on the present, and contemplate our future. This is also the ideal time to create a clearer, more accurate, and fully inclusive history of the region – one that recognizes the contributions of women as leaders and shapers of culture. This illustrated talk will provide powerful examples of well-known and unknown women who were/are changemakers in Colorado Springs.
