

AAUW Budget for 2022-2023

Below is the approved budget for this fiscal year based on 175 members. The first part of the income or \$23,290 is the actual operating budget. The second half of the income is totally dependent on donations and funds raised and what is called “pass-through” accounts. The same is true for the expenses. New this year is a budget line item for the Girl’s STEM program that we hope to contribute \$1000. More about this program can be found elsewhere in this newsletter.
